THE SELF-GUIDED ELEMENTAL INVENTORY.....\$259

The Self-Guided Inventory is the little brother to the Elemental Inventory. In this version, leadership teams work through all the same leadership development exercises and videos, but without the comprehensive analysis and report presentation at the end. But that's not short-changing the learnings your team will experience in the personal and group reflective exercises. Because of less "hand-holding" from a face-to-face consultant, we can offer it at a fraction of the price.

For hungry churches wanting to self-discover their elemental strengths and weaknesses!
